

Descendant of the light

I live in a special place
Filled with love and peace,
Full of joy and cheers,
Strive for glory and relief.

I come from a school
Where there is no pool,
But a shining sun,
Making our school life fun.

I come from a wonderland
Where teachers are thoughtful.
The principal is gentle,
And students are helping.

I love my school so much,
We work hard to reach new height.
I am sure our future is bright.
I am the descendant of the light.
