

Theme: School

You are one of my favourite teachers  
Who never give boring lectures.  
You teach us with heart and passion  
And I know I should turn my promises to you into action.

You are one of my best friends  
Who care for us even at weekends.  
You are kind and broad-minded  
And I know I should also be nice to others.

You are one of my best role models  
Who work hard to achieve your goals.  
Decent, diligent are the words to describe you  
And I hope I can be a person good as you.

You are one of the best teachers in the city  
Who always seek our opinions first before organizing class activities.  
Every encouraging word you say is brilliant  
And I really want to thank you a billion.

Thank you, for putting such efforts in teaching us English.  
Thank you, for teaching us so much knowledge so we are no longer foolish.  
Thank you, for telling us the importance to distinguish between right and wrong.  
Thank you, for all your love and patience, Miss Wong!
