

School Life

School is a daily routine for us,
In the morning, we're sure to make a fuss.
Even when the sun is still not up,
here we are, awake at 6am sharp.

We think that school is a bore;
we feel that school is a chore.
But parents say, "School is great! Get ready now!"
Then, we ask, "Well, how do you know?"

The bell is ringing ding-ding-dong,
We will join together to sing the school song.
Then, we start our days with our buddies,
this at least makes us more interested in our studies.

For the teachers in our school,
Students may think they are always cool.
Yes, sometimes they are as cold as ice,
but most of the time they're actually really nice.
They teach us and help us when we need;
listen to our heart and treat us as friends indeed.
In fact, our teachers are helpful and good,
Making students have a cheerful mood.

Whether you see school as a torture every day,
Whether you are desperate for a holiday,
Whether you are tired of your miserable days,
I still enjoy my school life any day.
